Objekta® PREMIUM – Briwatherm MICRO duvet

The hollow, spiral crimped fibres of the Briwafill® filling are siliconised and woven together into a durable fabric. On the one hand, this achieves a high bulk which ensures good thermal insulation. On the other, siliconisation prevents the fibres from clumping together after washing, thus ensuring durable sleeping comfort properties for the duvet.

The velour microfibre with soft-touch finish employed as the casing material makes this duvet luxuriously soft and snug. This fabric ensures optimum sleeping comfort.

Objekta® PREMIUM – Briwatherm MICRO duvet

- Casing** Super soft microfibre fabric, 100% polyester
- Filling** High-quality brand filling Briwafill®, 100% polyester
- Finish** Hexagonal stitching with special edging band

| BRIWATHERM MICRO | 135 x 200 | 1200 g | 57511 |
| DUVET | 155 x 220 | 1500 g | 57513 |

*Other sizes available upon request

BRIWATHERM MICRO Duvet

Stitching schematic diagram

The stitching on a duvet prevents the filling material from moving inside the duvet, thus ensuring even warmth over the whole surface.
