Objekta® PREMIUM – Briwatherm TERRY duvet

The hollow, spiral crimped fibres of the Briwafill® filling are siliconised and woven together into a durable fabric. On the one hand, this achieves a high bulk which ensures good thermal insulation. On the other, siliconisation prevents the fibres from clumping together after washing, thus ensuring durable sleeping comfort properties for the duvet.

The casing is double-sided. The terry cloth side has a high cotton content with good moisture absorption and wicking. The reverse, made from blended fabric, is very snug and breathable.

Objekta® PREMIUM – Briwatherm TERRY duvet

- Casing** Top: soft terry cloth, 80 % cotton/20 %polyester
Bottom: Special blended fabric, 65 % polyester/35 % cotton

DUVET	155 x 220	1700 g	53993

*Other sizes available upon request

BRIWATHERM TERRY Duvet

Stitching schematic diagram

The stitching on a duvet prevents the filling material from moving inside the duvet, thus ensuring even warmth over the whole surface.
