Objekta® BASIC – BASIC duvet

Thermofill® hollow fibre, specially developed for institutional requirements, is very hard-wearing and durable. The robust fabric is perfectly adapted to frequent washing, even in industrial laundries.

The exceptionally smooth surface of this special robust percale blended fabric makes it very appealing.

The durable microfibre fabric distinguishes itself through its soft and snug feel, an excellent ability to keep its shape and exceptional tear-resistance.

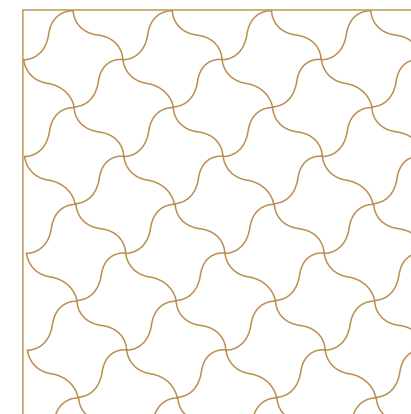

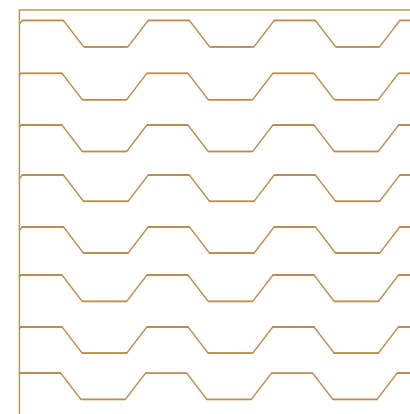

Objekta® BASIC – BASIC duvet

Casing **Basic:** Special percale, 50 % polyester/50 % cotton
 Basic microfibre: Microfibre fabric, 100 % polyester

Filling Thermofill® hollow fibre, 100 % polyester

Duvet**

Stitching schematic diagram

The stitching on a duvet prevents the filling material from moving inside the duvet, thus ensuring even warmth over the whole surface.
