Objekta® PREMIUM – Briwatherm MICRO pillows

The evenly cut polyurethane rods guarantee good support whilst ensuring a supple adjustment of the filling. Pillows with this filling are very snug and supportive. The filling ensures a constant pillow volume without material fatigue.

The casing of Briwatherm micro pillows is quilted with a Briwafill® fabric that ensures good bulk, softness and great air flow. The microfibre fabric lends the pillow a soft and silky feel.

BRIWATHERM MICRO Pillow

Stitching schematic diagram

A quilted pillow casing gives the pillow's surface an even appearance and keeps the pillow snug over time. The high tear-resistance of quilted pillow casings further increases the life of the pillow.
