Objekta® SPECIALITY PRODUCTS – Washable pillows, wipe-clean

Evenly cut polyurethane rods give this pillow its extraordinary resilience and ensure a soft touch with a smooth surface. The evenly cut rods ensure that the filling material doesn't clump if used properly.

This is a high-quality casing made from jersey lined with polyurethane. The high hydrolytic resistance guarantees long durability. The material is fire-resistant whilst also free from halogens. The microfine coating is permeable to water vapour, thus guaranteeing a pleasant sleeping environment. The casing can be disinfected by wiping and is very pleasant to the touch.
