Objekta® 16 – MATTRESS PAD

Total height: approx. 3 cm

The hollow, spiral crimped fibres of the Briwafill® filling are siliconised and woven together into a durable fabric. On the one hand, this achieves a high bulk which ensures good thermal insulation. On the other, siliconisation prevents the fibres from clumping together after washing, thus ensuring durable sleeping comfort properties for the duvet.

The soft, visually attractive fabric is very hard-wearing, easy to care for and durable. It is even suitable for the demanding standards of laundering in an industrial laundry.

Objekta® 16 – MATTRESS PAD

- Filling** High-quality brand filling Briwafill®, 100% polyester
- Casing** Special, robust blended fabric, 65% polyester/35% cotton

Objekta 16® MATTRESS PAD Stitching schematic diagram

The stitching on a mattress pad prevents the filling material from moving, thus ensuring even warmth and pressure distribution over the whole surface.

Secured with 4 rubber corner straps
