CLASSIC DT-Visco topper – MATTRESS PAD

Total height: approx. 7 cm

Gentle sinking, tangibly snug fabric moulding to the contour of the body and a feeling of pure relaxation thanks to perfect pressure distribution are all on offer with the viscoelastic DT-Visco topper. Don't leave relaxed sleep and dreamy nights to chance.

The topper's casing is soft and quilted and consists of a very elastic double-layer fabric. It also has a climate band around the side to support air flow in the topper.

CLASSIC DT-Visco Topper – MATTRESS PAD

Casing Double layer fabric made of 59 % polyester, 41 % cotton quilted with 300 g/m² climate fibre (100 % polyester) and surrounding climate band made from 100 % polyester

Core Comfort pad made of visco foam, density 50

Total height approx. 7 cm

	160 x 200	03892290150
	180 x 200	03892290152
	200 x 200	03892290154

*Other sizes available upon request

A topper is a mattress pad that helps increase the resting comfort of the mattress by providing greater softness. Its use also lifts the total height of the bed or resting surface. In addition, a topper protects the mattress, thus contributing to its care. As a topper is usually significantly thinner and lighter than a mattress and the sheets can be removed from it separately, it makes changing elasticated sheets easier.
