CLASSIC DT cold foam topper – MATTRESS PAD

Total height: approx. 7 cm

Find the perfect balance between pleasant softness and gentle support for the body when sleeping on this mattress topper made from top-quality cold foam.

The topper's casing is soft and quilted and consists of a very elastic double-layer fabric. It also has a climate band around the side to support air flow in the topper.

CLASSIC DT cold foam topper – MATTRESS PAD

- Casing** Double layer fabric made of 59% polyester, 41% cotton quilted with 300 g/m² climate fibre (100% polyester) and surrounding climate band made from 100% polyester
- Core** Comfort pad made of cold foam, density 55
- Total height** approx. 7 cm

A topper is a mattress pad that helps increase the resting comfort of the mattress by providing greater softness. Its use also lifts the total height of the bed or resting surface. In addition, a topper protects the mattress, thus contributing to its care. As a topper is usually significantly thinner and lighter than a mattress and the sheets can be removed from it separately, it makes changing elasticated sheets easier.
