BOX 20 TTFK – Box-spring bed with barrel pocket spring core

Total height: approx. 36 cm

The BOX 20 is a high-quality box-spring bed with a 7-zone barrel pocket spring core system to ensure excellent sleeping comfort. The frame is made from solid wood elements to make it stable and robust. The mattress is prevented from slipping off the box by a lavishly manufactured double layer fabric with an anti-slip coating.

The comprehensive selection of fabrics and leather allow you to perfectly coordinate your new bed with the interior furnishings of your hotel room. We would be delighted to send you an overview of all the available materials.

The Hotelbox 20 is fitted as standard with round, black, 14 cm high wooden legs. Other frame leg variants are available.

Treat your guest to beds at a comfortable height! Keep beds lower than 40 cm. This bed system makes it possible.
