### Optima® PREMIUM Plus three-chamber pillows

Optima® PREMIUM pillows are ideally suited for sophisticated hotel operators who want to offer their guests a soft and comfortable, yet supportive, pillow.

**Rhombo-fe® three-chamber pillow:** The pillow's inner core is made from our patented brand filling, Rhombo-fe®. This consists of a combination of high-quality natural feathers and air cell rods (PU rods) cut into rhombus shapes. The PU rods protectively surround the feathers, thus increasing the durability of the pillow.

### Optima® PREMIUM Plus three-chamber pillows

Schematic diagram

#### Three-chamber pillow

A three-chamber pillow consists of one inner and two outer chambers. The inner chamber, or pillow core, contains a more supportive filling material. The two outer chambers are filled with soft down.

**The inner chamber** ensures that the head and neck are well supported.

**The outer chambers** provide a soft and comfortable layer for the head and neck to sink into.
