Optisan® PREMIUM duvet – NIGHTLIFE® duvet

The hollow, spiral crimped fibres of the Briwafill® filling are siliconised and woven together into a durable fabric. On the one hand, this achieves a high bulk which ensures good thermal insulation. On the other, siliconisation prevents the fibres from clumping together after washing, thus ensuring durable sleeping comfort properties for the duvet.

This exclusive duvet is surrounded by fine mako cotton satin made from 100 % cotton. This smooth fabric is exceptionally soft and comfortable to the touch.

NIGHTLIFE® duvet
Stitching schematic diagram

The stitching on a duvet prevents the filling material from moving inside the duvet, thus ensuring even warmth over the whole surface.
