Optisan® CLASSIC duvet – ECCO® DREAM duvet

Cyclafill® is a filling fibre made from recycled polyester. The source material for the environmentally friendly polyester filling is recycled PET bottles. This brand hollow fibre is hard-wearing, durable, environmentally friendly, as well as being comfortable and soft. This product protects natural resources and contributes to sustainable development.

The aim of the Better Cotton Initiative is to improve the sustainability of international cotton production for people, the environment and the future of the sector. Licensed BCI farmers produce cotton in an environmentally friendly way and ensure good water and soil health, as well as taking care of natural habitats. The licence also guarantees socially responsible working conditions.

Optisan® CLASSIC duvet – ECCO® DREAM duvet

ECCO DREAM® duvet  
Stitching schematic diagram

The stitching on a duvet prevents the filling material from moving inside the duvet, thus ensuring even warmth over the whole surface.
